collaboratively to prepare students  
for the TAKS test

## How do I access this free resource?

Go to [www.esc9.net](http://www.esc9.net) and click on Library and Technology Resources. Click on the link Student On-Line Tutorials. When you follow these links, this page will appear: When you click on the link for Online Learning Center, this page will appear:

Click on the link for Student On-Line Tutorials and when you click on the link for Online Learning Center, this page will appear:

## What is my child's username and password?

- 1) Their username will be the first initial of their first name and their entire last name (lower case/no spaces) with a password of region9.
- 2) If this login does not work, it might be the case of two students having the same first initial in their first name and same last name. Please ask them to use their first initial of their first name then first initial of their middle name followed by their last name. The password is region9.
- 3) Please call the school for assistance if duplicate logins still exist.

*Because the PEIMS student database from last year's fall submission is used, all 9<sup>th</sup> graders will need to click on the junior high campus because last year, they were in the 8<sup>th</sup> grade. If your school is a K-12 single campus, you will not be affected by this.*

## Which tutorials are available for my child?

### Elementary Science
